DETAILED ACTION

Claim Objections

1. Claims 1-8, 10, and 19 are objected to because of the following informalities: the claims are incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The "weight measuring structure" has no element recited which senses weight.

Also, the "band-shaped segment" which extends "perpendicular" to the direction of travel of a moving vehicle is not described (claims 7 & 19).

There also seems to be no description of an embodiment which uses a capacitive sensor or a strain gage sensor, nor how either of these two different types of sensors might be mounted to the load cell (Claim 10).

Appropriate correction is required.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "band-shaped segment" which extends "perpendicular" to the direction of travel of a moving vehicle must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate

Art Unit: 2841

prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1-4, 7, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Barten (US # 4,744,254). Note that Barten discloses an embodiment where the pressing member is a cylindrical bar (Col. 3, line 65 to col. 4, line 14).

Application/Control Number: 10/633,968 Page 4

Allowable Subject Matter

5. Claims 5 and 6 would be allowable if rewritten to overcome the objections(s) set forth in this Office action, supra, and to include all of the limitations of the base claim and any intervening claims. Claims 9-20 are allowable over the art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randy W. Gibson whose telephone number is (571) 272-2103. The examiner can normally be reached on Mon-Fri., 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kamand Cuneo can be reached on (571) 272-1957. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
